DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7, 9-14 and 16-17 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Sumrack.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 8 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sumrack. The article being glass substrate does not result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art since the prior art structure is capable of performing the intended use.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

Art Unit: 3749

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, lines 3 and 4, and claim 13, "and air flows ... other side" is confusing. Moreover, "and air flows ... VOC thereon" in lines 3-5 is a duplication which renders the claim confusing. In claim 3, 4, 13 and 17, the word "vertex" renders the claims confusing.

Claim Objections

8. Claim 9 is objected to because of the following informalities: Claim 9 must refer back to a preceding claim. Appropriate correction is required.

Specification

9. The disclosure is objected to because of the following informalities: There is no brief description of Figures 5A and 5B; therefore, in paragraph [0021], "5" should be changed to -- 5A and 5B --.

Appropriate correction is required.

Priority

10. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Art Unit: 3749

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
